

NEWS FROM HOUGHTON

BOY SCOUTS
ENTHUSIASTIC

MOVEMENT IS GROWING FAST IN
HOUGHTON—EIGHTEEN EN-
LISTED SO FAR—OUTFITS
RECEIVED.

The Boy Scout movement is growing fast in Houghton and already a considerable number of boys have enlisted. The suits for the youngsters arrived yesterday at Haas' clothing store and are being distributed among the members of the organization. The local organization numbers eighteen boys at present and it is expected this number will be largely increased in a few months. The master scout, one of the prominent citizens of Houghton, is very enthusiastic over the prospects and considers the movement one of great benefit to boys.

"The scouts" have already had a number of camps and have done a part of the scout work laid down in the rules. A number of the boys have passed examinations admitting them into the second class of scouts. These examinations are conducted by people best posted in their special lines. The electrical examination is given by a telegraph expert; the woodcraft examination is held by men and women posted in the lore of the woods; the examination in seamanship is given by Chief Boatswain Nelson of the Yantic, and the boys also are examined in the art of signaling by another officer of the Yantic.

The whole aim of the movement is to promote self reliance. It has been argued that the Boy Scout movement savors of "militarism," and this idea was yesterday answered by a citizen of Houghton who is connected with the movement in this city. He stated that the movement is in no way connected with the navy or army and connected to credit statement that it would provide a sort of recruiting service for the militia. He declared the movement does not spell militarism and that the routine which would convert a man into an unthinking machine. It is intended to make the boys think and act for themselves. Obedience, it was stated, is naturally a cardinal virtue, but free scope is given for the development of initiative, self-reliance and self control. Neither is it influenced by race, religion nor locality. General Baden-Powell, the originator of the movement, states "the whole object of the scheme is to make the boy's character in its red-hot stage of enthusiasm and to weld it into the right shape, to encourage and develop its individuality so that the boy may become a good man and a valuable citizen to his country."

ALLEGED MASON, MICH., MAN
IS WANTED IN HOUGHTON

A Mason, Mich., dispatch says: Sheriff Cline received word yesterday from the authorities at Houghton that a man giving his name as J. C. Borden and home as Mason, Mich., was wanted for obtaining money under false pretenses. He represented himself as an agent for three different magazines and solicited subscriptions for them. He required a deposit of about half on the subscription and when his victims did not get their magazines, they became suspicious and the fraud was discovered. He claimed to be deaf and dumb while working in Houghton county, but it has since been learned that among his victims are some Mason people and that he did not claim to be deaf and dumb while working here. Mrs. Nellie Burridge, of Pontiac, a daughter of Mrs. Chapman, of Mason, was also swindled out of three dollars by the same fellow. Yesterday evening, Postmaster Charles W. Browne received some letters from people in South Dakota regarding the same man. The letters stated that he claimed to be deaf and dumb and that he was from Mason. The man is not known here. He will be taken into custody by the authorities in South Dakota and brought back to Michigan to answer to the charges against him.

COPPER RANGE RAILROAD
REBUILDING CAR SHOPS

Work on the foundation of the new car shop to be built on the site of the one recently destroyed by fire, was begun yesterday by the Copper Range railroad company and will be rushed to completion. The foundation will be built by the railroad company and the contract for the remainder of the building will be let to a local contractor. Bids for the building of the new shop are already in and the contract will probably be let this week. The new car shop, which will be a paint shop and carpenter shop combined, will be constructed of brick, steel and concrete, and is to be entirely fire proof. The dimensions of the paint shop are 24 by 147 feet, inside measurements, while the carpenter shop will be 36 feet by 105 feet. A steel frame will separate the two shops and a track will be run through each. The new buildings will be a big improvement over the old Copper Range shops. The shops as planned are larger than the former, and in making them fire proof the company will avoid another fire like the recent one, which entailed a loss of \$4,500 all of which, however, was covered by insurance.

MAKI CASE CONTINUED
IN THE CIRCUIT COURT

The case of Alex Maki of Mohawk, who is suing the Mohawk Mining company for \$10,000 for injuries said to have been received in the No. 4 shaft of the Mohawk mine was continued this morning. The examination of Hans Koski, one of Maki's two companions at the time of the accident, which was begun at three o'clock yesterday afternoon, was continued this morning. Koski appears to be the most important witness for the plaintiff and it is probable that his examination will consume the entire day. Attorney Rees requested the court yesterday morning to set aside the verdict in the Bellair vs. Worcester Lumbar company case, which was reached Saturday evening, and in which the plaintiff was awarded damages. Attorney Rees stated the jury's verdict was against overwhelming evidence. A portion of Mr. Rees' contention was supported by the court but the request was denied. The defendant may file a written motion for a new trial.

Justice Court Cases.
The trial of Amiel Laplante charged with larceny of a horse on the Chassell road, was postponed until one week from today by Justice Little in his court yesterday afternoon because of the absence of the prosecuting attorney and several important witnesses. The examination of the six boys of South Range charged with burglary will be held in Justice Jarvis' court at South Range, Thursday, Oct. 6.

DELEGATES TO CONVENTION.

The Houghton county delegates to the Republican state convention left this afternoon for Detroit where the convention will convene Thursday, October 6. It is conceded by the delegates that Chase S. Osborn will be the leader at the convention and he will be one of the principal speakers.

Mr. Albert Quenel not only has a charming tenor voice, full of resonance but sings with dramatic power. The playing of Miss Ada Sassoli on the

harp, has stamped her as one of the most finished artists on this most difficult of all staccato instruments. Mr. John Lemmon, the flautist displays splendid technique and plays with great beauty of tone.
